The Council will hear public testimony and proposes to take final action on Amendment 8 to the Fishery Management Plan for Shrimp in the Gulf of Mexico. The amendment would allow a 2-year increase in the total allowable catch of royal red shrimp by up to 30 percent (up to 509,000 pounds) to provide catch and effort data. The acquisition of better data on how the resource responds to an increase in fishing effort would allow scientists to obtain a better estimate of maximum sustainable yield and thus allow appropriate levels of catch. Copies of the draft amendment are available from the Council office (see **ADDRESSES**).
